

# Slides Web Security - SQL Injection

# SQL Injection

# SQL Injection

Celah di mana hacker dapat membuat atau memasukkan SQL query untuk mengakses data pada database.

**SQL Injection dapat menyebabkan kebocoran data secara langsung!**

# Formulir Login

Username or Email Address

Password

☐ Remember Me

Log In

`SELECT * FROM users WHERE  
username = '<username>' AND password = '<password>'`

‘

' <masukkan SQL query> --

# SQL Injection

Username

administrator' --

Password

☐ Remember Me

Log In

SELECT \* FROM users WHERE  
username='administrator' -- ' AND password='<password>'

# SQL Injection

Username

administrator' --

Password

☐ Remember Me

Log In

SELECT \* FROM users WHERE  
username='administrator' -- ' AND password='<password>'
